

December 2019

Dear HOHC Supporter:

House of His Creation has 2020 Vision...will you continue to join us? In 2020 we will be back to solely operating as House of His Creation (HOHC). We have learned a lot from our time operating as Family of Restoration Ministries.

As we have expanded services to encompass the before and after of women walking through a pregnancy decision, while homeless or in need of support, we have increased our experience and knowledge of working with women who have faced adverse childhood experiences, drug addiction, mental health crisis, long term sexual abuse including women escaping sexual exploitation and sex trafficking.

But in 2020 we will be focused on HOUSING. We are looking to completely underwrite the apartments moving forward. Why?

Women facing crisis continue to reach out for services, sometimes during their pregnancy and increasingly while single parenting in the aftermath of domestic violence, a long term abusive situation, mental health challenges and in general, needing a place to land and regroup.

When the rent is covered we are able to serve more women in need. We continue to work from the foundation of maternity and mother-child housing, however, we have expanded our borders to offer a safe haven to women in unique situations that have no where else to turn.

We can now say we are serving more women in different ways, at different points of need, for various lengths of stay before, during and after pregnancy.

We need your support to continue our mission and to grow our vision! The larger our team of support the more impact we can make!

HOUSE OF **HIS** CREATION

Who We Are

Mission:

House of His Creation as a life-affirming ministry provides women a place to heal, to grow, and to learn through housing and ongoing support.

Vision:

To bring hope through loving, caring, sharing, and giving by God's grace, anointing, wisdom, and compassion to impact individuals and families for change.

What we do:

- Family style maternity housing for women over 18
- Provide respite for women and their children escaping domestic violence
- Provide short term and transitional housing and support for women coming out of sex trafficking and sexual exploitation
- Offer ongoing support to single mothers through classes, events, and home visitation
- Offer support and mentoring to start up housing programs

What is expanding:

- Housing in our apartments
- The scope of need we can serve
- Crisis care
- Ongoing support options and individual programming
- Walking alongside families that open their home to women in need

What We Need:

- **Ambassadors** to get to know us and share our mission and vision.
- **Businesses** to partner with us in underwriting the use of the apartments.
- **Small groups** of friends to invest time, talent and raise funds.
